Collabnet VersionOne is an agile project planning and management tool designed to help enterprise teams adopt and implement agile methodologies. Based on the acquisition of VersionOne, Collabnet/VersionOne enables teams to manage their backlog of user stories, estimate and plan the work to deliver the user stories and then manage the actual delivery. VersionOne supports Scaled Agile Framework and multiple agile methodologies from sprints, where the delivery work is timeboxed to kanban, where the focus is on flow.

Feature Comparison

**Project Financial Management**

CORE	STARTER	PREMIUM	ULTIMATE
FREE	BRONZE	SILVER	GOLD

Tracking, managing and reporting on the budget and actual costs of the project. Able to allocate costs to OPex or CAPex depending on specific organization reporting rules. Time tracking information used to determine labor cost allocations. Specific features would include: budget, spend, time tracking, resource cost, Capex/Opex.

**Hill Chart Status reporting**

CORE	STARTER	PREMIUM	ULTIMATE
FREE	BRONZE	SILVER	GOLD

Hill charts make it simple to report the general status of a work item, issue, or project. Where before the top of the hill, the item is full of uncertainty and unknowns, and after the crest of the hill, execution is clear sailing with fewer risks and unknowns.

**Advanced Time Tracking**

CORE	STARTER	PREMIUM	ULTIMATE
FREE	BRONZE	SILVER	GOLD

Able to capture individual time reporting for specific assigned tasks and then to allocate labor costs to the appropriate project. Specific features would include: estimate, actual, cost, reporting.

**Risk/Issue Management**

CORE	STARTER	PREMIUM	ULTIMATE
FREE	BRONZE	SILVER	GOLD

Able to define and manage project RISK and ISSUE status and workflow to identify, track, mitigate and resolve potential risks and active issues facing the project. Risk/Issue status and resolution managed through online workflow that tracks assignment and actions to address the specific item. Specific features would include: workflow, risk severity, risk priority, Assigning Risk/Issue for action, Risk/Issue status.

**DevOps Pipeline**

CORE	STARTER	PREMIUM	ULTIMATE
FREE	BRONZE	SILVER	GOLD

Able to establish visibility into the end to end DevOps pipeline so the entire team is aware of pipeline status and can contribute to overall success. Specific features would include: visibility into status of pipeline

**Portfolio Planning**

CORE	STARTER	PREMIUM	ULTIMATE
FREE	BRONZE	SILVER	GOLD

Establishing strategic priorities and direction in order to govern the allocation of corporate resources to support specific business/IT initiatives. Strategic planning evaluates in-flight projects and proposed future initiatives to shape and govern the ongoing investment in projects and discretionary work. Able to model and optimize different portfolio investment scenarios to determine the ideal funding combinations to meet strategic priorities. Specific features would include: Proposals, epics, backlog, strategic alignment, estimation, prioritization, what-if, monte-carlo simulation, optimization.

**Portfolio Status Management**

CORE	STARTER	PREMIUM	ULTIMATE
FREE	BRONZE	SILVER	GOLD

Tracks and reports on the overall status and health (scope, schedule, budget) of projects and programs within the portfolio to enable executives to support project execution. Specific features would include: forecasting, status tracking, release planning, roadmap, milestones, project/program hierarchy.

**Scrum**

CORE	STARTER	PREMIUM	ULTIMATE
FREE	BRONZE	SILVER	GOLD

Able to support the time-boxed (sprint) approach of the Agile -Scrum software delivery. Specific features would include: Issues, scrum boards, burndown charts, burn up.

**Kanban**

<p>CORE STARTER PREMIUM ULTIMATE</p> <p>FREE BRONZE SILVER GOLD</p>	✓	✓
<p>Able to support the flow based approach of Agile - Kanban software delivery. Specific features would include: Issues, Kanban boards, burn up, cumulative flow diagram.</p>		
SAFe (Scaled Agile Framework) - Essential SAFe		
<p>CORE STARTER PREMIUM ULTIMATE</p> <p>FREE BRONZE SILVER GOLD</p>	✓	—
<p>Able to support the key principles and practices of the Essential SAFe configuration., Agile Release Train, (a combined CD pipeline where multiple projects align to release), Planning Increment (PI) Planning (cadence driven project planning/ vision)</p>		
SAFe (Scaled Agile Framework) - Lean Portfolio Management		
<p>CORE STARTER PREMIUM ULTIMATE</p> <p>FREE BRONZE SILVER GOLD</p>	✓	—
<p>Provides support for the key elements of Lean Portfolio Management. Specific features would include: Release Train, Lean Portfolio Management.</p>		
Financial Management		
<p>CORE STARTER PREMIUM ULTIMATE</p> <p>FREE BRONZE SILVER GOLD</p>	✓	✗
<p>Tracking, managing and reporting on the budget and actual spend of projects and programs within specific portfolios. Able to allocate costs to OPex or CAPex depending on specific organization reporting rules. Time tracking information used to determine labor cost allocations. Specific features would include: budget, spend, time, resource cost.</p>		
Resource/Team Management		
<p>CORE STARTER PREMIUM ULTIMATE</p> <p>FREE BRONZE SILVER GOLD</p>	✓	✗
<p>Tracks and manages the availability of team members by skill, experience, location, and cost, so they can support both planned and unplanned work. Specific features would include: individual capacity, individual skills, individual assignments, labor cost.</p>		
Work Planning/Management		
<p>CORE STARTER PREMIUM ULTIMATE</p> <p>FREE BRONZE SILVER GOLD</p>	—	✗
<p>Able to define, schedule and assign specific tasks to team members and manage the sequence and interdependency of tasks with each other. This form of structured planning is needed when tasks are clearly defined and sequence of execution is critical. Specific features would include: WBS, Gantt Chart, Task Assignment, Scheduling, task sequence, task relationships.</p>		
Product Roadmap		
<p>CORE STARTER PREMIUM ULTIMATE</p> <p>FREE BRONZE SILVER GOLD</p>	✓	✗
<p>Establishing the product vision and strategy to organize, govern and shape the effort of the multi-disciplinary team building specific business services. The Product Roadmap is based on specific business goals and objectives, manages high level requirements, prioritizes future features, allocates resources, tracks progress and measures business results linked to the business strategy. Specific features would include: Product Strategy, Idea Gathering, Requirements Management, Resource Management, Feedback Collection, Milestone Tracking, Release Management, Workflow Management, Feature Tracking/Deviation, Roadmap Analytics, Centralized Notes, Report Generation, Imports, API/SDK, Conflict Management, and Customized Alerting.</p>		
Requirements Management		
<p>CORE STARTER PREMIUM ULTIMATE</p> <p>FREE BRONZE SILVER GOLD</p>	—	✓
<p>With Requirements Management you are able to gather, document, refine, and track approval of business and system requirements. Manage and track the relationships between requirements and other requirements, requirements and code, or requirements and test cases for each version of requirements. Specific features will include definition, traceability, and requirement hierarchy and dependency.</p>		
<p>See direction page for details</p>		

Satisfy Requirements from CI/CD pipelines

CORE	STARTER	PREMIUM	ULTIMATE
FREE	BRONZE	SILVER	GOLD

This powerful feature uses the GitLab single-application model to allow testing run in the CI/CD pipelines to satisfy your requirements. This automates the cumbersome task of identifying satisfied requirements, and enables your organization to focus on delivering value.

[See direction page for details](#)

Quality Management

CORE	STARTER	PREMIUM	ULTIMATE
FREE	BRONZE	SILVER	GOLD

Able to support test planning, definition of test cases, results of test execution and corresponding backlog of work resulting from failed tests. Specific features would include: Test case planning, test execution, defect tracking (backlog), severity, priority.

[See epic for details](#)

Portfolio Management

CORE	STARTER	PREMIUM	ULTIMATE
FREE	BRONZE	SILVER	GOLD

Plan and track work at the project and portfolio level. Manage capacity and resources together with Portfolio Management.
