

GitLab how-tos, tips & tricks

Teaching the Basics About GitLab
Feu Mourek | *NETWAYS*

The Go-to DevOps Tool for Non-profits and Early-stage Companies
Asad Raza | *Coder in Chief*

GitLab for Collaboration Beyond Code
Molly de Blanc | *GNOME Foundation*

Simple Cluster Deployments Using Nomad and GitLab CI/CD
Tracey Jaquith | *Internet Archive*

Continuous Delivery and Infrastructure Testing: A Perfect Fit
Chris Smith | *Pulumi*

To Go Where No One Has Gone Before...
Mario Kleinsasser | *STRABAG BRVZ IT*

Building an Online Store With GitLab Pages
Benson Muite, Bernard Banta | *KichakatoKizito | FinPlus*

MLOps: DevOps for Machine Learning
Monmayuri Ray | *GitLab*

Cloud Native DevOps

GitOps-Based Ops Modernization
Bob Wise | *AWS*

Google Anthos Cluster Change Control with GitOps and GitLab CI
Shea Stewart | *Arctiq Inc.*

Shaping a Financial Service Cloud Strategy
Diego Camizotti, Rodrigo Domingues | *CI&T*

Ship Code More Securely
Gideon Wulfsohn, Jackie Meshell, Krasimir Angelov | *HashiCorp & GitLab*

Creating Production Ready Containers with Cloud
Cora Iberkleid, Andreas Evers | *VMware*

Real World DevOps with Azure Cloud & GitLab
Abel Wang | *Microsoft*

Cost-Efficient ML Model Training Using GitLab CICD in the Cloud
Robbie Dyer | *Eficode*

Remote but Always Connected

How to create an inclusive culture
Eimear Marrinan, Meaghan Williams | *HubSpot*

How To Successfully Onboard Engineers
Alexandra Sunderland | *Fellow.app*

Remote control: helping non-engineering teams to achieve faster
Bethan Vincent | *Netsells*

Build incredible software products
Aaron Rothschild, Paul Rothrock | *MatterMost*

Namaste at Home: Culture Cures for Long-Distance Teams
Savannah Peterson | *Savvy Millennial*

Stronger remote cultures: Rethink Your Work Week
Daniel Pupius, Nicholas Walsh | *Range*

That Meeting Should Have Been An Email
Luke Thomas | *Friday.app*

Remote to the Rescue: How Virtual Jobs are Saving the World
Laurel Farrer | *Distribute Consulting & Remote Work Association*

DevSecOps

State Of DevSecOps - Empower Developers To Find And Fix Security
Amy Demartine | *Forrester*

Ubiquitous Quality Through Continuous Testing Pipelines
Joe Lust | *Mabl*

Checkmarx Integration with GitLab
James Brotsos | *Checkmarx*

Getting Fuzzy: Blurring the lines of traditional QA
David DeSanto, Sam Kerr | *GitLab*

Attackers Won't Be Happy
Nico Meisenzahl, Philippe Lafoucrière, Wayne Haber | *White Duck & GitLab*

In-Context Security: The Destination for DevSecOps
Rhys Arkins | *WhiteSource*

Contributing to the Secure & Defend Roadmaps
Cindy Blake | *GitLab*

PubSec Leading Transformation

How the U.S. Army Cyber School Created 'Courseware as Code'
Ben Allison | *US Army Cyber School*

The Journey of a Government Software Factory with GitLab
Edmond Kuqo | *NIWC Atlantic*

Running DevSecOps at the Brazilian Federal Public Ministry
Leonn Paiva | *Brazilian Federal Public Ministry*

Scientific Computing and Engineering Design Accelerated
Mattia Montanari | *Oxford University*

DevOps 101: Getting to Minimal Viable 'DevOps-ness'
Rayvn Manuel | *National Museum of African American History & Culture*

Scaling DevOps at the NSA
Eric Mosher | *NSA*

Accelerating through Low-to-High Cross Domain Collaboration
Marc Kriz | *GitLab*

Enabling the Tactical Edge through DevSecOps in a Box
Anshuman (Andy) Patel | *Jasper Solutions*

Cloud-Native Security
Jonathan Schreiber, Ram Kailasanathan, Rand Waldron | *Oracle*

Compliance

How we Married Policy-as-Code and Compliance
Keith Rhea, Tim Jones | *MindPoint Group*

Essentials of Building a Compliance Program with GitLab
Saumya Upadhyaya | *GitLab*

Managing Software Development in High Compliance Environments
Liran Haimovitch | *Rookout*

How to Build a Compromise-Resilient CI/CD
Trishank Karthik Kuppusamy | *Datadog*

Agile Compliance and Risk Operations
Mark Peters | *Technica Corporation*

Who's Watching Your Pipeline?
Brandon Dewitt | *MX*

Achieving Workload Portability AND Remaining Compliant Using GitLab
Frank Ford | *Genworth*

Leading Transformation

Leading DevOps Transformation with GitLab Data
Bobbi Wenzler, Nicole Schultz | *Northwestern Mutual*

Why Your Organization Should Embrace The Community Model!
Karl Cardenas | *State Farm*

Lean Portfolio Management through GitLab Epics
Alberto Dominguez | *Sperta Consulting*

Automating Modernization with Anthos Migrate
Mike Ensor, Kurt Dusek | *Google*

Automated Governance
John Willis | *RedHat*

A Small (But Vital) Step In Our DevOps Journey
Scott Adams | *Rolls Royce (UK SMR)*

Everyone Can Contribute

Inclusion in Technology: Everybody Belongs
Shaaron A Alvares | *T-Mobile*

Design contributions to OSS: Learnings from the Open Design workshop
Eriol Fox | *Third Sector Design & Open Source Design*

Holding a Non-traditional Retrospective
Mary Thengvall | *Camunda*

My Unexpected Journey to Become a GitLab Hero
Mario García | *Mozilla Reps*

The State of Black Software Development
Nnamdi Iregbulem | *Lightspeed Venture Partners*

Welcome Home! The Best Projects Lower The Contribution Barrier
Josh Dzielak | *Orbit*

Communication Hacks: Strategies for fostering collaboration
Nuritzi Sanchez | *GitLab*

Demo Stage

Chef Demo: Risk Management in a Coded Enterprise
Greg Sloan

Leverage GitLab To Automate Machine Learning Pipelines
William Galindez Arias

GitLab Demo: Using GitLab to Power our Frontend Technical Interview
Clement Ho

VMware Tanzu Demo: GitOps with TMC and GitLab
Keith Lee and Ivan Tarin

Jumpstart Your Development With GitLab and OpenShift
John Senegal

Distributed Tracing: The Ticket To Shipping Quickly And Confidently
Clay Smith

Google Demo: Automating Modernization with Anthos Migrate
Mike Ensor

Merging with confidence with Pulumi
Praneet Loke

AWS Demo: GitOps Modern Operations for EKS
Jonah Jones

Cross Domain DevSecOps with GitLab and Oracle Cloud
Jeff Simpson, Josh Tatum

ServiceNow Demo: Accelerate ServiceNow Change Management for DevOps
Danny Smith

Using GitLab Composer Repository To Manage PHP Dependencies
Abubakar Siddiq Ango

Keynotes

Opening Keynote: The Power of GitLab
Sytse 'Sid' Sijbrandij | *GitLab*

DevOps Works! ...Why Hasn't Security Kept Up?
Joni Klippert | *StackHawk*

Automation, Mastery & Purpose: The New New Transformation
Shaaron A Alvares | *T-Mobile*

Measuring DevOps
Nathen Harvey, Dina Graves Portman | *Google*

GitLab Product Keynote
Anoop Dawar, Christie Lenneville | *GitLab*

DevSecOps in Government and Highly Regulated Industries
Nicolas Chaillan | *USAF*

Turn Up The Volume Of Your Deployment
Jaynene Hapanowicz | *Dell*

Four Ways to Further FOSS
VM (Vicky) Brasseur

Stories from our Community Keynote
Ray Paik & Community | *GitLab*

Gitting Lean: GitLab And Our Transition
Lisa Cockrell, Jordan Upperman | *Issuetrak*
